## QMD Services – WHO ARE WE

QMD Services is a Notified Body for the certification of medical and in vitro diagnostic devices. We are currently expanding our team for this responsible activity in a highly regulated environment. Our specialists come from all over Europe, so our corporate language is English. Depending on where you live, you will have the option of working either in Vienna, Linz or in your home office.

To strengthen our team, we are looking for a

### Internal Clinician (MDR)

As part of your role as an Internal Clinician, you will be responsible for reviewing technical documentation from various manufacturers either independently or as part of a multidisciplinary team supporting various certification projects, with the aim of verifying that the devices meet the requirements of Regulation (EU) 2017/745. Ultimately, your work will determine whether a device can be demonstrated to be safe and effective and can be recommended to the Notified Body for CE certification.

#### Essential Functions:

- Carry out clinical oversight on conformity assessment projects, including identifying when specialist input is needed, supervise and evaluate clinical specialists work, provide clinical judgement, scientifically challenge clinical data and investigations and participate in final review meetings
- Train and evaluate competence of internal and external clinical personnel on relevant state of the art documents and scientific results
- Contribute as clinical specialist in the conformity assessments
- Develop and build up the clinical team and ensure coverage of all codes and products
- Coordinate with other clinical specialists, product reviewers, and the project leaders to meet the review timelines, and deliver high-quality reports

#### Required Education and Experience:

- Board certified medical doctor in a clinical discipline (currently registered)
- At least two years of working experience in creating or reviewing clinical evaluation for medical devices
- Sound knowledge of Regulation (EU) 2017/745 (MDR) as well as related harmonised/state-of-the-art standards, Common Specifications and MDCG guidance documents
- 2 years Notified Body experience as Clinical Specialist
- Experience as Internal Clinician are of advantage

**Job-specific competences:**

- Provide reliable, impartial and unbiased judgement
- Work to specified deadlines
- Excellent networking and leadership skills
- Excellent verbal and written communication/presentation skills
- Ability to manage competing priorities
- Good organizational skills
- Ability to work remotely as part of an international team
- Proficient in English language (written and spoken)
- Ability to draw up detailed/accurate records/reports
- German language skills are of advantage

**We offer:**

- Specialised training opportunities according to the role
- Long-term perspective with career opportunities in a fast-growing company
- Home office option with flexible working hours
- Dynamic and agile working environment in an international team of experts
